

## **A REGIONAL MODEL OF CONFIDENCE BUILDING FOR NUCLEAR SECURITY IN ARGENTINA AND BRAZIL**

Clovis Brigagão and Marcelo F. Valle Fonrouge  
Published in: The International Journal of Peace Studies

“To administrate the SCCC, the Agreement creates the Brazilian-Argentinean Agency for the Accountancy and Control of Nuclear Materials (ABACC), which has an international juridical nature and is formed by technicians from both countries. The ABACC represents a guarantee that the pacific use compromise will be held and that the installation and materials of the nuclear programs of both countries would remain under its jurisdiction.” (p. 10)
